

Grow-Ridge

At Grow-Ridge we focus on developing transferable skills in horticulture. This hands-on program allows the learners to expand their

Skills and qualities in:

- ❖ Growing foods
- ❖ Recognising tools
- ❖ Identifying seasonal plants

The program is based at our Grow-Ridge allotments in Doncaster and aims to engage learners in an outdoor activity whilst ensuring safe practice and promoting independence. We grow organic foods to support the Hospitality & Catering training platform.

A range of qualifications are available to support this industry.
