Policy Statement

The purpose of the Observation of Teaching, Learning and Assessment Policy is to clearly state how The Ridge Employability College (TREC) will:

- quality assure the delivery of teaching, learning and assessment
- develop teachers / tutors and drive high standards of teaching, learning and assessment across all provision
- identify where further support and mentoring is required
- identify and share best practice across all provision
- evaluate the quality of learning experienced by learners.

Responsibility

The overall responsibility for monitoring the implementation of the process rests with SLT who will review the policy every two years.

Process

The OTLA process includes:

- formal observation (Appendix 5)
- HLTA observation (Appendix 8)
- classroom visits (Appendix 6)
- planning(Appendix 3) / work scrutiny evaluative activity (Appendix 7)
- peer visits this enables teaching staff to informally observe other teaching staff.
 Teaching staff participating in this activity are expected to reflect on their learning from observing other staff and identify how their teaching skills will develop as a result.
 (Appendix 1)

Standards and Targets

TREC has set its standard for teaching, learning and assessment observation profile based on the National Teaching Standards,

https://www.gov.uk/government/publications/teachers-standardslink checked 20/01/2025

Set High Expectations which inspire, motivate and challenge learners

- 1 Promote good outcomes and progress by learners including life after college
- 2 Demonstrate good subject and curriculum knowledge
- 3 Plan & teach well-structured lessons
- 4 Adapt teaching to respond to the strengths and needs of all learners

- 5 Make accurate and productive use of assessment
- 6 Manage behaviour effectively to ensure a good and safe learning environment
- 7 Fulfil wider professional responsibilities
- Effective if 6 out of 8 standards are met with the exception of Number 7 that is a non-negotiable.
- Developing if less than 6 standards are secured.
- Not effective if Number 7 is not met.

For all standards not met individual development points will be raised and shared on the observation documentation and will be supported by the Curriculum Manager. If a qualified teacher did not meet 50% of the standards required this process would fall under the first stages of informal process as per the Capability Policy.

For the purpose of reporting the overall college grade to SLT & Governors the Quality of Education will be measured by reporting the total number of standards across the teaching team considered to be effective against the total number of overall standards. This data will be anonymised in relation to person and area of development, with the exception of referencing if Standard 7 (Safeguarding) was identified

All teachers/tutors will be formally observed no more than 3 times during the year. Prior notice will be given of 5 working days and formal feedback following the observation will be shared within 5 working days. There will be an opportunity to share revised planning with the observer(s) no later than 48 hours prior to the formal observation. Observations will be completed by Head of Curriculum and external advisors appointed by TREC.

Teachers/tutors who are new to the teaching team for TREC will be observed during their first half term.

HLTA's are expected to follow the guidance laid out for Teachers & Tutors with the expectation they will comply with the HLTA standards and for the purpose of observations will meet 50% of the overall standards that do not include those that do not apply to the specific observation.

Classroom visits (Appendix 6)

All teachers/tutors and learning mentors will be part of classroom visits that will be carried out periodically to support the College Action Plan and provide information to support the development of the curriculum.

Classroom Visits Procedure

These visits will be completed by a member of SLT, external advisors appointed by TREC and/or a member of the Board of Governance and will last no more than 20 minutes. Feedback will be shared as part of the whole team College Action Plan half termly review.

Procedure for Lesson Observation

- Teachers/Tutors will be given 5 working days' notice of the intention to complete a formal observation, with the exception of external inspection.
- Observations will be carried out by experienced observers, including the Curriculum Manager supported by an external consultant.
- Observations will not necessarily last for the entire duration of a teaching session but teachers / tutors can expect to be observed for a minimum of 45 minutes.
- A provisional grade (1-8) will be given for each observation standard and be confirmed to the teacher / tutor on the OTLA record.
- All OTLA records and feedback are confidential, results will be anonymised for the purpose of reporting the overreaching 'Quality of Education' and informing Development Plans.
- Development Plans from previous observations will be reviewed as part of the OTLA cycle.

The Development Plan resulting from the observation will be monitored by the Curriculum Manager and progress records.

During the visit

- The observer can arrive at any time during the session and will introduce themselves to the teacher / tutor.
- The observer will observe for a minimum of 45 minutes
- The teacher / tutor will make learners aware of a possible visit and reassure them of the process.
- The teacher / tutor planning and all materials appropriate to that session should be available to the observer.
- The observer will make notes during the session
- The observer will talk to learners and look at their work and Individual Learning and Development Plans. The questioning of learners by the observer will be informal but professional. It will not personalise issues to do with the teacher / tutor or raise doubts in learners' minds about the programme of learning.

Feedback

Feedback arrangements must ensure sufficient time for both observer and teacher / tutor to allow the session to be reviewed thoroughly and take the opportunity to review and reflect on the teaching practice observed. It is recommended that both the teacher / tutor and the observer set aside at least 30 minutes to ensure that this process is developmental and involves a 'two way' professional dialogue between the teacher / tutor and the observer. Verbal feedback will be given within one working day, unless otherwise agreed. Where possible, this will be included within the working day.

It may only be possible to carry this out via telephone (or online discussion) but face to face is preferred.

Teachers / tutors should be advised that the observer may reflect on the observation before detailed feedback is provided.

During the feedback, teachers / tutors are encouraged to be actively involved in the review of the session and their subsequent actions for improvement. Questions on the observation report support this process.

Teachers / tutors will receive written feedback within 5 working days.

The teacher / tutor will have the opportunity to discuss the observation further with the observer at a face to face meeting if requested.

General teacher / tutor development needs identified through the OTLA process will inform professional development opportunities within the college.

Appeals

If the teacher / tutor disagrees with the observer's judgements, then initially this should be discussed with the observer.

If, after subsequent discussion, the teacher / tutor still disagrees with the judgements, the teacher / tutor must contact the Head of College by email within 5 working days. The OLT report will be reviewed and the Head of College will contact the teacher / tutor to discuss the issues within 5 working days.

Following the discussion and review of the evidence, the decision by the Head of College will be made and communicated to the teacher / tutor within 5 working days to uphold the original judgements or to carry out a second observation by an alternative observer.

Mentoring for Newly Appointed teachers / tutors

TREC will ensure that newly appointed teachers / tutors are supported and have regular reviews of their schemes of work and session plans including a review of the teaching, learning and assessment strategies planned. This includes all statutory requirements for the Early Careers Framework.

Unqualified teachers

Unqualified teachers will follow the same procedures as qualified teachers.

Higher Level Teaching Assistants

HLTAs will follow the same procedure as qualified teachers, but will be assessed using the HLTA standards

Procedure for Lesson Observation

- HLTAs will be given 5 working days' notice of the intention to complete an observation, with the exception of external inspection.
- Observations will be carried out by experienced observers, including the Curriculum Manager supported by an external consultant.
- Observations will not necessarily last for the entire duration of a teaching session but

- HLTAs can expect to be observed for a minimum of 45 minutes.
- All OTLA records and feedback are confidential, results will be anonymised for the purpose of reporting the overreaching 'Quality of Education' and informing Development Plans.
- Development Plans from previous observations will be reviewed as part of the OTLA cycle.

Standards and Targets

TREC has set its standard for teaching, learning and assessment observation profile for HLTAs based on the HLTA Standards, (Appendix 8)

Set High Expectations which inspire, motivate and challenge learners

Personal and Professional Conduct Knowledge and Understanding (includes planning for sessions) Teaching (delivery) and Learning Working with others

Ways of sharing Good Practice

The Head of College will produce a schedule of CPD events for all teachers / tutors in which sharing good practice and teaching and learning strategies will be a focus.

Sharing good practice may be done through:-

- Network meetings: where workshops are arranged which focus on:
- teaching and learning issues that arise from observations and staff development which is cascaded
- Presentations or interviews with learners, teachers /and tutors.
- Mentoring arrangements made by observers as a result of OTLs
- Teaching and learning Conferences or CPD sessions
- Teaching and Learning updates

Peer Observations

TREC encourages teaching staff to participate in Peer Observations where possible. This enables teaching staff to informally observe other teaching staff in order to develop skills and knowledge with regards to specific areas of the curriculum, or wider contexts within college.

Teachers / tutors participating in this activity are expected to reflect on their learning from observing other staff and to identify how their teaching skills will develop as a result.

Appendix 2 Grade Descriptors Ofsted handbook - updated September 2024

Grade descriptors

Outstanding (1)

- The provider meets all the criteria for a good quality of education securely and consistently.
- The quality of education is exceptional.

In addition, the following apply.

- The provider's curriculum intent is strong. Throughout the provider and its subcontractors, teachers have a firm and common understanding of the intended curriculum and what it means for their practice.
- The provider's implementation of the curriculum is consistently strong. Across all parts of the
 provider, including in subcontracted provision and for learners with SEND and those with
 high needs, teaching and training are of a high quality. Training activities contribute well to
 delivering the curriculum intent.
- The work that learners do over time embodies consistently demanding curriculum goals. It
 matches the aims of the curriculum in being coherently planned and sequenced towards
 cumulatively sufficient knowledge and skills for future learning and employment.
- The impact of the taught curriculum is strong. Learners acquire and develop high-quality skills and produce work of a consistently high standard.
- Learners consistently achieve highly, particularly the most disadvantaged. Learners with SEND achieve the best possible outcomes.

To judge whether the quality of education is good, requires improvement or is inadequate, inspectors will use a 'best fit' approach, relying on the professional judgement of the inspection team.

Good (2)

- Leaders adopt or construct a curriculum that is ambitious, appropriately relevant to local, regional and national employment and training priorities and designed to give learners, particularly the most disadvantaged, the knowledge and skills they need to succeed in life.
- The curriculum is coherently planned and sequenced towards cumulatively sufficient knowledge and skills for future learning and employment.
- The provider is ambitious for all its learners, including those with SEND and those who have high needs, and this is reflected in the curriculum. The curriculum remains ambitious and is tailored, where necessary, to meet individual needs.
- Learners study the intended curriculum. Providers ensure this by teaching all components of the full programmes of study.
- Teachers have expert knowledge of the subject(s) and courses they teach. Leaders provide
 effective support, including for those teaching outside their main areas of expertise. Where
 relevant, teachers have extensive and up-to-date vocational experience.

- Teachers present information and/or demonstrate skills clearly, promoting appropriate
 consideration of the subject matter being taught. They check learners' understanding
 systematically, identify misconceptions and provide clear, direct feedback. In doing this, they
 respond and adapt their teaching as necessary, but without having to use unnecessary, timeconsuming, individual approaches to presenting subject matter.
- The work that teachers give to learners is demanding and ensures that learners build knowledge and acquire skills, improving on what they already know and can do.
- Teachers encourage learners to use subject-specific, professional and technical vocabulary well.
- Teachers work effectively with support staff to ensure that all learners achieve as they should.
- Over the course of study, teachers design and use activities to help learners remember long term the content they have been taught, to integrate new knowledge into larger concepts and to apply skills fluently and independently.
- Teachers and leaders use assessment well, for example to help learners embed and use knowledge fluently and flexibly, to evaluate the application of skills, to check understanding and inform teaching, or to understand different starting points and gaps as a result of the pandemic. Leaders understand the limitations of assessment and do not use it in a way that creates unnecessary burdens for staff or learners.
- Teachers create an environment that allows the learner to focus on learning. The resources and materials that teachers and trainers select and produce in a way that does not create unnecessary workload for staff reflect the provider's ambitious intentions for the course of study and clearly support the intent of a coherently planned curriculum, sequenced towards cumulatively sufficient knowledge and skills for future learning, independent living and employment.
- Any remote education is well integrated into the programme of education/training, and is well designed to support the wider implementation of the provider's curriculum.
- Learners develop detailed knowledge across the curriculum and, as a result, achieve well
 across all areas of their study. Learners make substantial and sustained progress from their
 identified and recorded starting points in each of their courses and, where applicable, across
 the curriculum. Where appropriate and available, impact is reflected in results from national
 examinations, which meet government expectations, or in the qualifications or
 apprenticeship standards obtained.
- Learners are ready for the next stage of education, employment or training. They have gained qualifications or have met the standards to go on to destinations that meet their interests and aspirations and the goal of their course of study. Learners with SEND/high needs have greater independence in making decisions about their lives.

Requires improvement (3)

The quality of education is not yet good.

Inadequate (4)

The quality of education is likely to be inadequate if any one of the following applies (unless they apply solely due to the impact of COVID-19):

- The curriculum has little or no structure or coherence, and leaders have not appropriately considered sequencing. Learners experience a jumbled, disconnected series of lessons/training that do not build their knowledge, skills or understanding.
- Learners' experiences in lessons or sessions contribute weakly to their learning of the intended curriculum.
- The curriculum does not prepare learners for the opportunities, responsibilities and experiences of life in modern Britain.
- Weak assessment practice results in teaching that fails to meet learners' needs.
- Learners do not develop or improve the English and mathematical skills they need to succeed
 in their next stage, whether that is in education, training or employment or in greater
 independence.
- The attainment and progress of learners are consistently low and show little or no improvement over time, indicating that learners are underachieving considerably.
- Learners with SEND do not benefit from a good-quality education. Staff's expectations of them are low. Staff do not identify learners' needs accurately, and are therefore unable to support learners' development effectively.
- Learners have not attained the qualifications, skills or behaviours appropriate for them to progress to their next stage of education, training or employment.
- The curriculum does not meet the needs of learners or employers, the local community or local, regional or national economies.

Appendix 3				
TREC Planning Scrutiny Record	Date:		Subject / Platform	
Planning	Lack of detail Learning outcomes for session not sufficiently defined Inappropriate level for learners and subject	Relevant outcomes but could be more clearly expressed' Content sufficiently develops all learners' knowledge and understanding / skills	Detailed Clearly expressed learning outcomes deepen learners' knowledge / understanding / skills Lesson content supports learners' development	Appropriate, relevant and challenging outcomes for learners. Session planned to enable learners to achieve these challenging outcomes.
Notes:				
Preparation e.g. of strategies, resources, equipment, environment and any available learning support. Takes account of subject being taught. Notes:	Under-prepared or unprepared in strategies, resources, environment. Lack of attention to detail	Lesson is adequately prepared, although level of attention to detail would impact adversely on the teaching and learning taking place	Detailed preparation which takes account of the learners, the context and teaching and learning in the subject	Preparation enables a degree of flexibility in anticipation of the needs of learners, the context and teaching and learning in the subject
Structure and sequencing e.g. recap, intro, chunking and linking of content, opportunities for application of learning	Lesson plan does not show appropriate structure and sequence. Insufficiently linked to planned outcomes.	Structure and sequence is evident but does not take sufficient account of individual learners and context.	Lesson is organised, structured and sequenced appropriately to enable learning outcomes to be achieved.	Organisation of the lesson content is thoughtfully and intentionally structured and sequenced to a high level to achieve planned outcomes. Flexible and able to make responsive adjustments in line with learners' needs and context.
Notes:

Appendix 7 -Work Scrutiny Record

Scrutiny staff: Scrutiny staff: Does be work that learners do over time reflect the intended curriculum? Doe be work that learners do over time does the work say about the overarching quality of education across a subject, or groups of learners? What does the work say about the overarching quality of education across a subject, or groups of learners? What does the work say about the overarching quality of education across a subject, or groups of learners? What does the work say about the overarching quality of education across a subject, or groups of learners? In the work that learners do over time does not reflect the intended curriculum
--

Depth and breadth of	The content of the tasks and learners' work do not show that learners learn a suitably broad range of topics within a subject	The content of the tasks and learners' work show that learners learn a limited range of topics within a subject	The content of the tasks and learners' work show that learners learn a suitably broad range of topics within a subject
coverage	Tasks do not allow learners to deepen their knowledge of the subject by requiring thought on their part, understanding of subject-specific concepts and making connections to prior knowledge.	Tasks show a limited impact on allowing learners to deepen their knowledge of the subject by requiring thought on their part, understanding of subject-specific concepts and making connections to prior knowledge.	Tasks also allow learners to deepen their knowledge of the subject by requiring thought on their part, understanding of subject-specific concepts and making connections to prior knowledge.
Learners'	Learners make no, or limited, progress from their starting points	Learners make some progress from their starting points	Learners make strong progress from their starting points
	Learners do not acquire knowledge and understanding appropriate to their starting points.	Learners acquire limited knowledge and understanding appropriate to their starting points.	Learners acquire knowledge and understanding appropriate to their starting points.
Practice	Learners are not given opportunities to revisit and practice what they know to deepen and solidify their understanding in a discipline.	Learners are sporadicallygiven opportunities to revisit and practice what they know to deepen and solidify their understanding in a discipline.	Learners are regularly given opportunities to revisit and practice what they know to deepen and solidify their understanding in a discipline.
	Leamers cannot recall information effectively	Learners recall limited information effectively.	They can recall information effectively, which shows that learning is durable.

Any misconceptions are addressed and there is evidence to show that learners have overcome these in future work.	End points are identified, with some guidance on what learners need to know and be able to do to building towards and what learners need to know reach those end points.	Some tasks have been designed so that learners read at an age-appropriate level at an age-appropriate level	Assessment is used to embed knowledge, but does Assessment helps learners to embed knowledge and use it fluently.	Work is improving towards being of a consistently high quality.	
Most misconcep	End points are identifi what learners need to reach thc	Some tasks have bee read at an a	Assessment is used to not help learne	Work is improving tow	
Misconceptions are not addressed	It is not clear what end point the curriculum is building towards.	Tasks do not encourage age-appropriate reading	Assessment does not help learners to embed knowledge and use it fluently	Work is consistently of a low quality
